## STAR CON. POSTS PRINCIPAL SALES

at Advanced Figures.

GAINS OVER YESTERDAY. UTILIZING WATER POWER.

in This Morning's Business -Record of Sales.

SILVER 63 7:8 LEAD, \$4.00 CASTING COPPER 15%

TODAY'S METALS:

Star Consolidated was made the principal play ground upon which the stock morning, 5,900 shares changing hands there. at figures ranging in fractions from 74 cents to 76% cents. While the hammer was longer suspended over this stock than any other shown on the board today, several other properties experienced some movement, Consolidated Mercur, Daly-West and Mammoth coming in for a greater share of the trading next to Star Consolidated.

At yesterday's meeting of the exchange this stock was sold at from 71% cents to 74 cents, so that the highest price paid today shows a gain of 21/4 cents in the twenty-four hours; and while the stock in closing fell a little short of today's maximum selling figure, it closed as a sturdy member at 75 cents bid and 75% cents asked.

Grand Central, May Day, Valeo, Joe Bowers and Yankee poked their noses into the trading, a few shares of each going at these respective highest figures: \$5.20; \$2,94; 18%; 2% and 9%.

While business today was not such as to be termed lively, it was by no means dull, and the prospects are for further gains by tomorrow. This is how all the stocks that received attention stood at the end of this morning's call:

CASE OF DESTITUTION.

There is said to be a case of want and destitution at 768 south State street, where lives Mrs. Cecil Bornstein, a widow. She has three small boys to care for, besides herself. They are the sons of Louis Friedman, the peddler, who was robbed by highwaymen in the eastern part of the State about three months ago. Friedman has always manifested great parental affection and when he committed his three boys to the care of the widow Bornstein, or on his trip last spring, he their support. The promise was kept up to about two months ago, when the last word that the woman received from him was from Rawlins, Wyoming, saying that he would send her Some goods in a few days which she could sell, and realize enough on them to compensate her for the keep of his sons. Mrs. Bornstein did not get the goods and fears that Friedman has met with foul play. Depending upon the remit-tances from Friedman, she has con-tracted debts which she cannot pay, and she says she is now in need of the necessaries of life.

## IMPROVEMENTS IN MEXICAN MINING

Fifty-Nine Hundred Shares Traded American Miners and Machinery are Producing Good Results.

Several Other Properties Participate | Big Smelting and Reduction Company Announces Erection of au Extensive Plant.

Mining in Mexico is undergoing much · ······· improvement these days and is recelving a new impetus from the introduction into country of American mineworking and smelting machinery. Manager Warren C. Bogue of the Mine and Smelter Supply company has just returned from a trip to the neighbor republic, and while his visit was confined principally to the City of Mexico his business dealings with residents there enabled him to hear much of the brokers gambolled on 'change this development of the mining industry

A prospectus issued by the Guaynopa Smelting and Reduction company, which is incorporated under the laws of South Dakota, says that the Seven and Monclova mines, producing silver, lead and copper, are sitnated in Guaynopa canyon, municipal-ty of Tomochic, mining district of Juerrero, state of Chihauhau, Republic of Mexico, about ninety miles southrest of Casas Grandes, the terminus of the Rio Grande, Sierra Madre & Pa-lfic railroad. There is said to be a good wagon road from Casas Grandes of Chinchupa. The Rio Grande, Sierra dadre & Pacific railroad has comted surveys of a proposed extension their railroad to within twenty-five s of the mines.

The Seven Star mine consists of nine pertencias and the Monclova forty-five pertencias, of 100 meters square each, aking fifty-four pertencias in a body company says it has an inex haustible and permanent water power in connection with the mines. It is obtained from the Guaynopa river, which runs through the mining properties. The fall of the river through the Guaynopa canyon is from fifteen to twenty per cent, and a head of 200 feet or more can easily be obtained in a short distance of the mines and at small cost. The company has acquired the water and timber, consisting of oak and pine. From this timber they propose to se-cure their supply of charcoal. The sup-ply of timber is practically inexhausti-

The cost of transporting and treating

The cost of transporting and treating ores from this district to the smelters at El Paso, Texas, and Aguascallentes. Mexico, is about \$95.00 Mexican money per ton of 2,000 pounds.

This enormous charge for transportation alone excludes from shipment all ores of less value than \$190 per ton gold. To meet this difficulty the company proposes putting up a custom smelter plant on the Seven Star property, which is in the Seven Star property, which is in the most central position, trails from several mines meeting there. There are also within twenty miles of the mines at least fifty mining claims

owned by various parties, all of whice will use the smelters of the compan-for the reduction of their ores, being unable to ship to other parts on account of the great cost of transportation.

CONSOLIDATED MERCUR.

October's Earnings Fell Below Those of the Previous Month.

Net profits of the Consolidated Mer cur company for the month of October were \$47,167.81, the third monthly report giving out these figures having been promulgated last night. While the earnings were less than those of Sep tember, the fact is readily accounted for in the extent of development work which has been done and the amount of low grade ore necessarily removed in the tonnage put through was larger than that of September and the values smaller. The permanent benefits exmakes the showing altogether satisfactory to the management and the com-The figures for October are as

from Lincoln, Neb., and will probably remain here until after the holidays. During his stay he will devote much time to his mining business in Utah.

It is expected that sinking will soon be resumed in the shaft of the Honorine mine. But little water now re-mains to be pumped out and the new machinery is making very short work

Gil S. Peyton, of the Royal Copper Mining company, started today for Chicago, where he will attend a meet-ing of the stockholders of that cor-poration, which will be held on Decem-

Superintendents Skyrme and O'Niell, of the Amalgamated Copper company's mines at Butte, are investigating the cave system of mining now being praticed at the Consolidated Mercur and Highland Boy mines. They will also make a thorough examination of the Golden Gate mill. The gentlemen will go out to Bingham before returning to Butte, where they may introduce some of the practices of Utah miners in the extraction and handling of ores.

Manager Frank R. Ball, of the West Argent, at Stockton, returned last night from a visit to the property, upon which was recently erected a new mill of 100 tons daily capacity. He reports the mill running in excellent shape and says that the property as a whole is making a good showing now. with prospects for improved outputs in the near future. About 30,000 tons of low grade ore is estimated to now show, and that large bodies remain uncovered is confidently felt and may rea sonably be expected

A Great Medicine

"I have used Chambarlain's Colic, Cholera and Diarrhoea Remedy and find Cholera and Diarrhoea Remedy and thu it to be a great medicine," says Mr. E. S. Phipps, of Poteau, Ark, "It cured me of bloody flux, I cannot speak too highly of it." This remedy always wins highly of it." This remedy always win who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere.

#### PRICES FURTHER ADVANCE

Business Was Enormous in Volume, but the Tone Was Yielding After High Opening.

First Dealings Were in Very Large Blocks-Gains Generally Were Only Fractional.

New York, Nov. 21 .- London led the way in a further advance in prices this morning. Opening dealings here were in very large lots, running from 1,000 to 5,-000 shares in many leading stocks. Gains, with few exceptions, were only fractional. Northern Pacific rose 14 and Union Pacific a point. There were running sales of 5,000 shares of Northern Pacific preferred at 85% down to 85, compared with 85% last night. Atchlson opened up an extreme 1% o nrunning sales of 5,000 shares. Business was in enormous volume, but the tone was yielding after the high opening on heavy sales to take profits. The effect was most marked in the Northern Pand preferred respectively. Subsequent and San Francisco stocks advanced from 1 to 2 points, the Northern Pa-cafics got within a shade of the highwith Brooklyn Transit leading Other stocks succumbed to profit tak ing, and the weight of these sales caus ed the tractions to run off before noon

The tractions felt the impulse of a heavy demand which advanced them Gains in some of the steel stocks, the tobaccos and the Northern Pacifics were wiped out and other stocks re-acted a point. The market became uieter at lower level. The grangers ontinued to show strength. St. Paul

Bonds were in good demand and strongly held.

AMUSEMENTS.

The brightest juvenile show ever seen in Salt Lake is that given by the 'Brownies in Fairyland," who repeated their performance at the Theater last night. The bad weather cut the attendance down, but the delight was just as pronounced as when the show was seen in the Grand the week previous. The individual hits were repeated, the cute work of little Queenie Tilton, Eva Learner, Maud Sorensen and Tom Dunn eliciting much praise. Two little tots aged 4 or 5 years who did a clever sand dance, are Norma and Erma Nichols, chil-dren of E. W. Nichols, the old-time musician and dancing master who used to live in Salt Lake. Mr. Nichols is located at Baker City, Oregon, but he is now traveling with the Brownie company.

Alice Nielsen's manager has decided to give a Friday afternoon matinee to take care of those who could not obtain seats for either night. The "Singing Girl" will be the opera repeated.

The same bill goes for tonight and this

The sale for the Grau Opera company concert is still going on at Daynes Mu-sic store. CAUSES EXCITEMENT. There is quite a stir here over the alleged indecent conduct of the Rev Cartledge of the M. E. church, in the presence of little girls who attend his church. People here who stand for law, order and morality, after fully inthe reverend gentleman is cruelly dealt with, as there is not a shadow of evidence to substantiate the charge that is made against him. Our city papers went so far as to say he vas run out of Kemmerer for a similar offense. Bishop Talbot was here yes-terday. He presides over the Methodist conference. He declares the statement is a falsehood; that he removed Mr. C. to Rock Springs thinking it was a bet ter field to labor in. The reverend gentleman was placed in the city jall, o keep him from the hands of men who vere worked up to such a pitch through Dame Rumor that they would have dealt summarily with him. He was removed to the county seat yesterday and will have a hearing next Monday

AN AGREEABLE AFFAIR. Complimentary to Bishop Alfred Solomon of the 22nd Ward.

On Monday, the 19th inst., Bishop Alfred Solomon was the guest of honor at a social party held at his residence. It was instigated and prepared by a numward, as a testimonial of esteem. The sexes. Not a few of them were friends who are not residents of the ward Among them was a group of the Bish-op's fellow-laborers in the Temple.

The initiatory part of this sociable consisted of pleasant informal conersation, which was suspended when the time came for the company to partake of a bounteous repast. Then there was singing and speech-making by the guests, the burden of the sentiments expressed being the high regard in which Bishop Solomon is held by those who uttered them. The honored guest responded appropriately. The affair was greatly enjoyed by all who par-

CHILDREN'S SINGING CLASS.

It appears that few Sabbath schools have failed to attend to the enrollment of members for the musical training Children from all such school whether in the city or out, will be admitted to the class next Saturday at 2 o'clock, at the Choir Hall. EVAN STEPHENS.

LIVE STOCK NOTES.

Breeders' Gazette: A few scientists have ventured to deny the spontaneous combustion of hay. Farmers who have lost barns from conflagrations which could be traced to no other source were firm enough in their belief that an of scientific theory which held that heat could not be raised to the point of combustion in the haymow. The question has been investigated recently by an official of the United States weather bureau, who found that fermentation with molst hay may raise the tempera-ture to 374 degrees Fahrenheit, at which high temperature clover hay will ignite, The mooted point may therefore be accepted as settled from a scientific point of view.

. . . Montana stockmer are fearful lest the winter should be severe, and thus Tel.127.

cause heavy losses among horses, catile and sheep. Feed is said to be short on the ranges. . . .

Local horse owners are worrying a little over the feed situation. Hay is scarce and there is a probability of very high prices in the spring, while a tax-paying time has passed the price of oats has taken a steady rise, with a prospect for the upward movement keeping on for some time yet.

Rexburg, Idaho, Current: Shaw, a cattleman, formerly of Utah, but now of Independence, Idaho, was in town Thursday on a visit, having just arrived from a trip to Denver, Col. Mr Shaw has purchased the Peter Herzig farm at Independence, and he and family will make a valuable addition to that thriving burg.
